PROFILE

I am a B.Tech student specializing in Artificial Intelligence and Data Science with a strong interest in full stack web development. I have experience working with Python, Node.js, databases, and basic front-end technologies. I enjoy building complete applications from backend logic to user interfaces and am eager to apply my skills in a real-world development environment while continuing to learn and grow.

EDUCATION

B.Tech Artificial Intelligence & Data Science

SNS College Of Engineering

08/2024 – Present

Coimbatore

HSC

Vidhya Vikas Matriculation Higher Secondary School

06/22 – 03/2024

LANGUAGES

Tamil

English

SKILLS

- Python
- Node.js
- Html
- Css

CERTIFICATES

- Byte XL - Python

PROJECTS

Career Path

Career Path Recommendation System – An AI model that recommends personalized career paths based on user skills and academic data.

A career path is a planned journey of learning, skill development, and work experience that guides a person toward their long-term professional goals. It shows where you start, what skills you build, and where you aim to reach in your career over time.

Inspect Ai

Quality Control (QC) is a systematic process used to ensure that products or services meet defined quality standards before they reach the customer. In a manufacturing environment, quality control focuses on inspecting raw materials, monitoring production processes, and checking finished products to identify defects, variations, or errors. The main objective of quality control is to maintain consistency, reduce waste, minimize rework, and ensure customer satisfaction by delivering reliable and safe products. Traditionally, quality control relied heavily on manual inspection, which can be time-consuming, subjective, and prone to human error.
